Highway Trooper to Study Causes of Traffic Fatalities

Special to The Tribune

CENTERVILLE — A Davis County trooper of the Utah Highway Patrol has been selected for employment by Cornell University Aeronautical Laboratory to do research on causes of traffic fatalities.

Trooper Thomas G. Calderwood, 323

E. 400 South, Trooper Calderwood

will begin his new assignment Oct. 30 as an administrative assistant specializing in impact dynamics.

The extensive nature of the

studies will cover such areas as conducting field investigations of accidents, directing controlled-crash experiments and research into the psychology of drivers who are involved in fatal accidents.

Trooper Calderwood is the second Utah Highway Patrolman to be accepted by national headquarters for highway safety to work on this project. The first was Trooper Scott Lee, Cache County, who entered the program 15 months ago.

Trooper Calderwood will continue his education in physics at New York State University in Buffalo while working at Cornell University.

Tpr. DENNIS F. CHARLESWORTH
Hometown: Draper, Utah. Appointed to Patrol Oct. 11, 1965. Attended College of E. Utah. Served in Air National Guard.

After 25 years

Officer Giles Retires From UHP

Wave 31 May 1984

Joe Giles

After 25 years of service on the Utah Highway Patrol, Smokey Joe

will hang up his gun and hand in his badge at the end of his last shift, May 31, 1984.

He was hired as weighman April 15, 1959, and served at the port of entry in Monticello, Utah for two years. He then transferred to the road in Wasatch County and has worked this area for the past 23 years. Joe has gathered a world full of memories — happy, sad, funny, tragic, frightening and rewarding over these years. Many he will never forget. He has a great love for the county he has worked in and he has laughed, cried, frustrated, argued with and loved many people who live here.

He and his wife Peg are proud of the two sons they have raised in this valley - Randy and Joey. During their growing up years Joe was assistant Den Mother, coach

on little league teams, front row spectator at all their sports and chief mechanic on his front lawn. The young people have always been special to him. Several years ago he organized a cops and kids basketball team, consisting of various officers in the county, their kids and friends, his sons and friends, and together on the basketball court they worked out frustrations and learned respect for each other.

Joe loves and enjoys his three grandsons, Chad, Colby Joe and Joshua Joe. He looks forward to spending more time spoiling them and taking them boating and picnicing this summer.

In his youth, Joe's father, George E. Giles, instilled in him a love for farming and law enforcement. George was also a peace officer in this valley for many years and gained the love and

respect of all the community. Joe has weathered many a storm with his father, both in law enforcement and in getting the crops to grow. After his father passed away, Joe went on to help hold on to the farm - he and his family, mother, Roberta B. Giles, brothers Bert and Steve and sister Fran, all share a piece of the land here. Joe now has a few cattle of his own and there are fences to mend, hay to haul and ditches to be dug. He trades his smokey bear hat for his favorite cowboy hat and plans to spend more time down on the farm.

He leaves with good feelings, hopefully a job well done and ends his career on the Highway Patrol - saying a last 10-42-signing off-he looks forward to lasting friendships, the continual support of his home town folk and is grateful for all of these.

Local Trooper To Receive Lynn Pierson Award

Trooper Rich Henning

Trooper Rich Henning, of Heber City, has been selected as this year's recipient of the annual Lynn Pierson award.

This award is given to a Highway Patrol Trooper in honor of Lynn Pierson, who was shot and killed in Southern Utah in 1978. The highway patrolman cannot be a supervisor and must have twenty years of service or more.

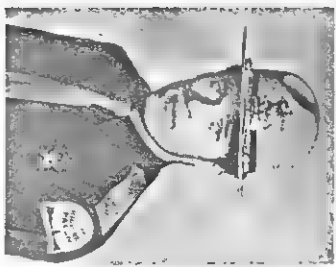

Rich was hired by the Highway Patrol in May of 1967. He started at the Daniels Port of Entry and then move to a field assignment here in Heber City. He has been in Heber City since joining the High-

way Patrol.

Rich is an outstanding trooper and is highly regarded by all those who work with him. Many of you may have seen Rich running up and down the roads of the County, as well as in his patrol car, he keeps himself very fit. He runs in most of the local races as well as the torch run for the Special Olympics.

He has two sons, Brian and Mark. Rich and his wife, Mary Ann, along with the Utah Highway Patrol Association, invite you to the Wasatch Mountain State Park on Tuesday, Aug. 15 to honor him. Please RSVP to Carol at 654-2073, or write to Utah Highway Patrol, 55 West Center, Heber City, UT 84032 by Aug. 9. Dinner will be a buffet beginning at 7 p.m. There will be a social hour to visit from 6 p.m. to 7 p.m. The cost for the dinner is \$9 per person.

pioneer equipment into the canyon and built a rough road into the future Provo River Valley.

For many years, this valley was known by several names: Williams' Valley, Valley of the Cones, Timpanogos Valley, Provo River Valley and more recently, Heber Valley.

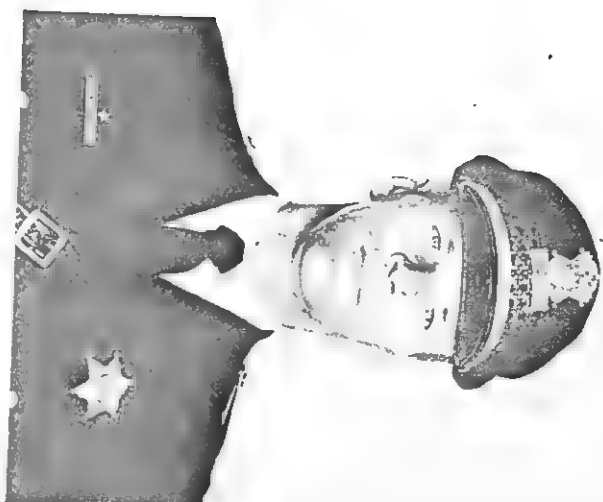

Thus, this story was detailed in the Journal History of the Church of Jesus Christ of Latter Day Saints. Other references were found in "How Beautiful Upon the Mountains," & "Unadorned Skies"

The importance of William Gardner and his exploring party have been heretofore poorly understood & therefore largely slighted in the history of this "Switzerland-like Valley" of Utah

JERRY AND CAROLYN MURRAY

Jerry and Carolyn Murray moved into the Heber Third Ward from Roosevelt, Utah, in the summer of 1968, with two sons, Cory and Lonny. Jerry managed the Christensen Department Store until it burned in February, 1972. When the store burned, Jerry tried to relocate but the company decided not to rebuild in Heber.

Leslie was born in Heber, while Carolyn was Primary President. Her counselors were Peggy Farrer and Betty Young and they had many special experiences during that time.

The family went back to Roosevelt for two years, until Jerry joined the Highway Patrol and they were sent to Coalville to live, while Jerry worked at the Echo Port-of-Entry. They always wanted to return to Heber, so when the chance came to transfer, they came back home.

Jodi was born while they lived in Coalville. So the family of six, now, lived in the Seventh Ward until they finished building their home back in the Heber Third Ward.

Jerry has always been a sportsman. He loves deer and elk hunting, and camping in the mountains.

When Carolyn isn't sewing, she enjoys her family, reading, singing with the Choralettes and her church callings.

Cory fulfilled a year and a half mission in Brazil which was

such a wonderful blessing for him and his family. While he was there, he met a wonderful girl named Linda and he went back to get acquainted with her. Her family moved to Heber soon after and in six months they were married in the Salt Lake Temple. They are now living in Salt Lake City while Cory attends the University of Utah.

Lonny is working in Park City and the girls are going to school. Jerry served as a Ward Clerk in Roosevelt and as Young Men's Counselor, Home Teacher and is now Elders Quorum President in the Heber Third Ward. Carolyn is presently president in the Young Women's Program. Before this calling she was counselor in the Relief Society.

An Important Untold
Story on the Early Exploration
of Wasatch Co., Utah 5-16-91
(To be read @ SLP Tonite @ Lion's Shelter
Cook out)

Colonizer Brigham Young was
well aware of many colonization
problems.

By 1852, only five years after
the original arrival in SL Valley,
these Pioneer Builders were running
out of timber, brought out of local
canyons to the east of SL Valley.

This prompted B. Y. to seek
a ^{very} dependable man to head up
an exploring party to search
up the Weber River & down the
Provo River.

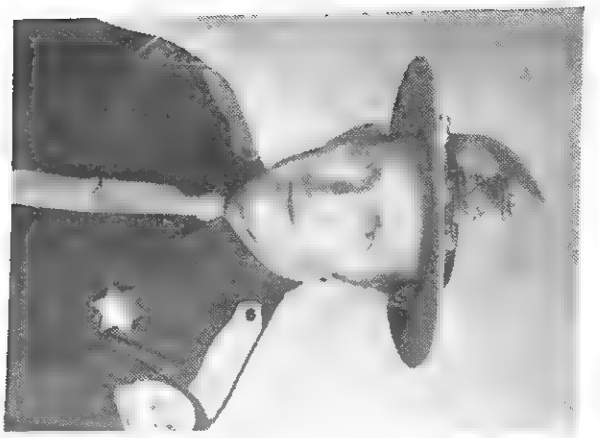

He contacted William Gardner
& his brothers Amibald, & Robert.
They accepted the challenge.

On 2 Sept 1852 these men and
three others explored up Weber
canyon, following the River to
its source.

They observed much native
timber and other natural resources.

They were impressed to come
back down, but by way of the
